

The Facts About Pe-ru-na.

Is Peruna an alcoholic beverage in disguise? Is it possible to use Peruna as a substitute for whiskey? Do people buy Peruna and use it as a toddy, or a bitters, or a bracer?

It would be the easiest thing in the world for any one to demonstrate the falsity of such statements. Let any one go to the drug store and purchase a bottle of Peruna. Let him undertake to use it as a beverage, or take this remedy in doses considerably larger than those prescribed on the bottle. Would the result be alcoholic intoxication? Nothing of the sort. Let any one try it and see.

Peruna is a medical compound quite heavily loaded with medicinal ingredients. If taken in doses larger than prescribed it would produce a positive drug effect. No one could take it as a beverage. If any one doubts these statements, try it and see. We know that Peruna cannot be used as a beverage; that it will not intoxicate; that it cannot be used as a substitute for liquor. We guarantee that PERUNA CONTAINS NO CHEAP WHISKEY—OR ANY OTHER WHISKEY, for that matter.

It contains a small per cent. of cognac spirits, absolutely essential to dissolve and hold in solution medicinal ingredients, but the drugs contained in Peruna prohibit its use as a beverage. It would be the easiest thing in the world for any one to demonstrate this if they chose to do so.

Peruna is sold everywhere. THE INGREDIENTS ARE PLAINLY PRINTED ON EACH BOTTLE. It has been said over and over again that chemists have analyzed Peruna and found it to contain only cubebs and whiskey. Now we challenge any chemist to demonstrate any such statement. Let any one who has even a smattering knowledge of chemistry purchase a bottle of Peruna and see whether or not it contains whiskey, find out for himself whether or not it is composed of cheap whiskey and cubebs. Of course, cubebs is one of the ingredients of Peruna, but there are many other ingredients. It contains hydnastis canadensis, corydalis formosa, collinsonia, and at least four other medicinal ingredients. To be sure, no chemist could so analyze Peruna as to be able to identify the various medicinal ingredients. This is beyond the ability of any chemist. But any ordinary chemist would be able to say that Peruna is heavily loaded with medicinal ingredients of some kind in addition to cubebs.

Now why are these statements repeated when their falsity could be so easily demonstrated? Simply because there is continued hostility toward Peruna on the part of the medical profession. Very likely the magazines which took up the crusade against Peruna and denounced it as a cheap beverage were misled by statements of the medical profession. Probably they were sincere in their attitude towards it. But now, after all these things have been said and refuted, it would seem to be in order for such people to use a little fairness and common sense in the matter.

Every time any one says that Peruna is nothing but cheap whiskey and cubebs he is telling a lie, an absolute falsehood. Most people intend to speak the truth. But the prevalent habit of repeating other people's statements, without investigation as to their truth, has led many well-meaning people to say these false things about Peruna.

Used according to the directions on the bottle, PERUNA IS A SAFE AND RELIABLE CATARRH REMEDY, but, like any other good medicine, if taken in excess of those doses, it will produce drug effects very unpleasant to the person who takes it.

It is therefore up to every honest person to quit making such statements concerning Peruna, or acknowledge that he is repeating slanders about which he knows nothing. One might just as well say that Castor Oil is an intoxicant; that if taken in large enough doses it will operate as a "booze." If people never tried to see, but simply repeated such statements about Castor Oil, the majority of people would come to believe them. It is no easier to demonstrate such a statement about Castor Oil than it would be about Peruna.

Any one who takes Peruna knows that such statements are false. To say that Peruna is cheap whiskey and cubebs may constitute good material for jokes on the vaudeville stage, but there is no excuse for any one who pretends to be truthful saying over again this oft-repeated falsehood.

JUDGE WOLFE ON STATEMENT OF TOUR OF STATE WOMAN'S HOME

Grand Chancellor, K. of P., Will Visit Old Lodges and Institute New Ones.

Judge J. Emmet Wolfe, who is grand chancellor of the Knights of Pythias of Florida, has completed the fall term of the circuit court in Escambia county and will leave tomorrow morning, accompanied by his wife and baby, for an extended trip through Florida, visiting the Pythian lodges.

Judge Wolfe will stop off at DeFuniak Monday to hear Mr. Bryan speak and attend to some chancery matters Tuesday he will institute Union Lodge No. 109 at Chipley. Wednesday he will be in Marianna hearing chancery cases, and will then proceed east and south, visiting Quincy, Tallahassee, Monticello, Live Oak, High Springs, Gainesville, Dunellon, Ocala, St. Petersburg, Tampa, Key West and intervening towns, reaching Miami in time for the grand lodge session which will be held March 10, 11 and 12 in the city of Miami.

The order of Knights of Pythias is exceedingly strong in Florida, numbering nearly 7,000 members, and is still growing. Five new lodges have been instituted during Grand Chancellor Wolfe's term of office, the last one for which a warrant is issued at Ena Gullie in Brevard county, to be numbered 110.

FINE PAIR OF TRUCK HORSES

ANIMALS PURCHASED IN FRANKLIN, KY., BY DR. LEFRANCOIS FOR THE BOARD OF SAFETY ARRIVE AND ARE MUCH ADMIRER.

What is possibly the finest pair of horses to be owned by the fire department arrived yesterday from Franklin, Ky., and were placed on duty in the Garden street truck house, where they will be used for either the fire engine or chemical wagon.

The horses were purchased for the city by Dr. A. M. LeFrancis, who recently went to Kentucky and selected the animals from among a number offered there.

Both horses are coal black, weigh over 1,400 pounds each and are fast travelers and young. They were much admired yesterday.

BUILDING OF SIDEWALKS IS TO BE RUSHED

Start Will Be Made on Palafox Street During First Portion of March.

IMPORTANT STREETS RUNNING EAST AND WEST WILL THEN BE TAKEN UP—SOME INFORMATION REGARDING THE WALKS WHICH THE PROPERTY OWNERS SHOULD REMEMBER.

The building of the twenty miles of modern concrete sidewalks contracted for by the city is to commence by Whiddon & Kennedy during the first portion of March. Palafox street will be the first street where building operations will commence and the contractors will place walks wherever designated on this thoroughfare from the bay to Gonzalez street.

The boundaries are Tenth avenue on the East, Gonzalez street on the north, Coyle street on the west and the bay on the south.

As soon as Palafox street is completed the contractors will then take up important streets running east and west, such as Garden, Gregory and Gadsden streets. The twenty miles of walk will not cover all the walks within the boundaries named, but it is the desire to continue the work until every street within the area named has good concrete walks.

The Payments. Under the contract between the city and contractor the owner of property in front of which a walk is being placed must notify the city clerk of his intention to accept either one of the two conditions named in this contract, which are as follows: First—the intention of the owner to pay the cash amount of the work and secure the discount of 10 per cent. If it is the desire of the owner to accept this condition the notification must be made before the commencement of the work in front of his property.

Second—The intention of the owner to accept the time condition. That is make a cash payment of one-fourth the full amount and give promissory notes in equal installments of one, two and three years, bearing interest at the rate of 6 per cent. The owner in this instance must notify the city clerk before the concreting has commenced and sign the notes.

For failure to give notice of accepting one or the other of the two above conditions the contractor will proceed to place the walk without consulting the owner and upon its completion the city will issue an appropriation warrant against the property, which is immediately due and collectable, and is the first lien against the property.

Additional Work. Wherever it is necessary, on account of the grade, to build a retaining wall for the walk, this work will be additional to that contracted for at 10 cents per foot, but will be charged for at the same rate.

Property owners residing outside of the sidewalk district and also those inside the district who are not ordered to place walks, can have them put down by addressing a letter to City Engineer L. E. Thornton. In this letter it should be stated which of the conditions the owner desires to accept regarding payments, and giving a description of the property by lot and block.

It will be useless for property owners to request a different class of walk from that which has been contracted for. The city has not the power to change the contract or have any kind of walk built but the one contracted for, neither is it desirable to do so, as under the present plan the walks will be uniform in all sections of the city.

The majority of the walks are to be six feet in width, excepting in the business district and on Garden street, where they will be eight and ten feet in width.

W. S. REEVE SELLS HIS SEVENTY-ACRE FARM AT COTTAGE HILL TO WILLIAM WODE OF MINNESOTA—MR. REEVE WILL CONTINUE IN THE BUSINESS, BUT ON A SMALLER SCALE.

Cottage Hill, Feb. 6. Editor Pensacola Journal:

It may be of interest to some of your reader's to know that Escambia county is leading in the peach orchard industry. Our 70-acre orchard here has recently changed ownership. Wm. Wode, of Minnesota, having purchased the same at a price entirely satisfactory to both seller and buyer.

In contemplating this remunerative investment, the seller can only console himself on the loss of its future returns in the memory of the years of residence in that erratic climatic area known as the north, which residence and the environments thereof, put him in the physical condition that he is now compelled to acknowledge his inability to give the orchard the care and attention it demands.

Could the masses of the north realize—before their failing ability compels it, the vital drain they undergo

"By George, I never saw anything like the effects of that new treatment, Protone, for the building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, dietaries, heavy eating, diets, milk, beer and almost everything else you could think of, but without result. I had been thin for years, and began

Any Man or Woman Who Is Thin Can Recover Normal Weight By The Remarkable New Treatment, Protone.

To think it was natural for me to be that way. Finally I read about the remarkable process brought about by the use of Protone, so I decided to try it myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just 30 pounds during the last month and never felt stronger or more 'nervy' in my life."

Protone is a powerful inducer of nutrition, increases cell-growth, makes perfect the assimilation of food, increases number of blood-corpuscles, and as a necessary result builds up muscles and solid, healthy flesh and rounds out the figure.

For women who can never appear stylish in anything they wear because of their thinness, this remarkable treatment may prove a revelation. It is a beauty-maker as well as a form builder and nerve strengthener. It will cost you nothing to prove the remarkable effects of this treatment. It is absolutely non-injurious to the most delicate system. The Protone Company, 923 Protone Building, Detroit, Mich., will send to anyone who sends name and address, a free 50c package of Protone, with full instructions, to prove that it does the work. They will also send you their book on "Why You Are Thin," free of charge, giving facts which will probably astonish you. Send coupon below to-day, with your name and address.

regardless of their reserve force, this southland would soon be peopled with those who are able to fight life's battles, as well as they who have to court its favors.

Could the money making hustle and energy that's waging war against such odds here but know the opportunities that await their efforts here, our range steer and razor back hog would soon be a memory.

There ever was and ever will be, failures everywhere.

Failure in youth is pardonable; in old age pitiable, but in middle age, the prime of life, it's abominable. No one is then excusable.

The mass of life failures is based on narrowness in some form; the want of broadminded willingness and freedom that makes all mankind kin; the weakness of envy and malice crowding out of our natures the elements that make to our success.

Could the efforts that are really wasted in trying to impede progress, (I say "trying," for it can't be done), and withhold success from others, be devoted to earnest, broadminded, intelligent use of our surroundings, many communities would nearer demonstrate their usefulness, and many men be bettered. In releasing our hold on this orchard, we commend the industry to all inquirers and shall at once re-enter it on a scale more in keeping with our abilities.

They Fight for You in Your Blood

Science is assured that the white corpuscles in the blood, popularly called "Little Soldiers," defend you against infectious and contagious diseases.

And that they do so only when they themselves are healthy and strong.

And that to make and keep them healthy and strong is to purify and enrich the blood.

The white corpuscles in your blood destroy the micro-organisms that attack the red corpuscles and the bodily tissues.

In this way they defend you. But they are not in condition to defend you, to fight for you, if you are troubled with eruptions, scrofula, eczema, catarrh, rheumatism, that tired feeling, loss of appetite, nervousness or general debility,—all of which are indications that your blood is impure and impoverished and your system run-down.

It is good to kill two birds with one stone, whenever you can. Take Hood's Sarsaparilla and it will cure any indication of impure

and impoverished blood from which you suffer and at the same time make the little soldiers in your blood healthy and strong.

Hood's Sarsaparilla is the greatest preventive as well as curative medicine.

Its record shows this. "I have sold the different Sarsaparillas for the past fifteen years, and consider Hood's not only the best sarsaparilla, but the best seller on the market. I use it in my family with the best results. Let a man use Hood's Sarsaparilla as an internal cleanser and Hood's Soap externally and he will be a clean man." C. F. Webb, Northumberland, N. H.

Hood's Sarsaparilla effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Begin taking Hood's Sarsaparilla today, in the usual liquid form or in the chocolate tablets known as Sarsatabs. 100 Doses One Dollar.
